

OWN YOUR magic Fall Product Goal Tracker

Supplies Needed:

A printout of page 2

2 pieces of heavy paper, tag board, or thin cardboard

Scissors

Single Hole Punch (Or scissors and adult help)

Pipe Cleaner or Straw

Instructions:

1. On the lines up the tree, write out increments that will help you reach your Fall Product Program Sales Goal. The number at the bottom of the tree trunk should be 0 (Zero) and the number for your goal at the top of the tree.
2. Cut out the tree and ocelot keeping the bars and dots intact.
3. Glue the tree onto a piece of cardstock, tag board, cardboard, or other form of heavier paper. Do the same for the ocelot but on a separate sheet. Cut out your ocelot and two circles so they are one shape.
4. Using a single hole punch or scissors, punch out a hole at each circle. For girls using scissors to do this, please get help from an adult.
5. Put a pipe cleaner or straw through one of the holes in the tree. Affix to the back or bottom with tape or glue.
6. Thread your ocelot onto the pipe cleaner or straw so that the image of the ocelot is in front of the pipe cleaner or straw.
7. Place the other end of the pipe cleaner or straw through the other hole in the tree and secure to the top or back side of page like before.
8. You should now be able to slide your ocelot up and down the pipe cleaner or straw to follow your progress towards your goal during the Fall Product Program.
