I am choosing to opt out of attending Troop Camp Skills training because I am an experienced camper and feel that I have the knowledge and skills to teach my troop and my adult helpers, and to lead my troop in a safe troop camping trip.

I have completed both of the home-study course requirements pertaining to travel and outdoor education and am thoroughly familiar with the material they cover:

- Course #401 – Planning Overnight Trips
- Course #402 – Outdoor Education Basics

I am competent in the following topics and commit to holding one or more sessions with my troop and adult helpers prior to our camping trip to review, practice, and plan:
